

# BLUE PHARMA COLLEGE OF HEALTH

5<sup>th</sup> May, 2020

## NOTICE ON ONLINE STUDIES

Dear Students,

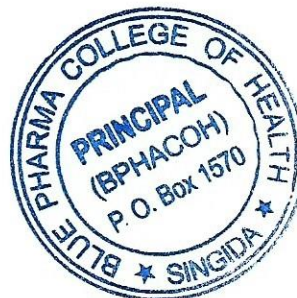

As you all know, due to the outbreak of COVID-19, training institutions have been ordered to suspend class training to avoid the spread of the virus. Blue Pharma College of Health suspended its classroom instructions from the 18<sup>th</sup> March, 2020.

However, we cannot glare idly for the duration of the closure. It is time to capitalize on the digital technology. Thus, starting from Monday 11<sup>th</sup> May, 2020, training will continue online. Under this approach, respective Tutors will be providing studies, guiding tasks, corresponding reading lists and materials via your WhatsApp groups and other online platforms as may be introduced to you. You are advised to make good use of the time and resources that you will be advised to read. Feel free to seek any further clarification from the tutors on particular aspects you may find unclear. As soon as we resume classes, we shall proceed to all necessary assignments such as **CAT 1** and **CAT 2**. So, all necessary instructions should be gathered and internalized during this period.

The tentative programme/time table for the COVID-19 period of closure and List of Lectures/ Tutors will be sent to you before 10<sup>th</sup> May, 2020. You may consult them for any necessary support.
